Bandung, West Java, Indonesia

Technical Project Manager with full-stack engineering background. Experienced in ERP delivery coordination, ISO 27001 & COBIT 2019 compliance, production security hardening, and cross-functional stakeholder management for BUMN and enterprise clients.

## Work Experiences

**PT Eltran Indonesia** - **Bandung, Indonesia** Nov 2024 - Jan 2026

*IT Staff*

Subsidiary of PT Len Industri (Persero) – State-Owned Enterprise (BUMN) under the Ministry of SOEs, specializing in IT solutions and digital transformation for government and industrial sectors.

- Coordinated end-to-end ERP delivery (SmartOffice Accounting & SDM/HR modules) as sole IT person under HC General Services division
- Owned sprint planning, backlog, and task allocation using 3-tier complexity model with multi-division coordination
- Participated in ISO 27001 (Succofindo) and COBIT 2019 audits; led documentation and finding remediation
- Led production security hardening and closed all pentest findings from PT Len Industri (parent holding)
- Mentored 3 intern developers; standardized coding guidelines and code review process

**Self-Employed** - **Bandung, Indonesia** Jan 2022 - Present

*Project Freelancer*

Handled diverse freelance projects spanning UI/UX Design, Full-Stack Web Development, and AR/VR Development, across clients ranging from SMEs (UMKM) to enterprise-level organizations including Telkom, Mayora, Kerry Group, Len Industri, and PZ Cussons.

- Led planning, scope definition, and milestone tracking for 5+ software products across parallel projects
- Managed client communication, requirements gathering, scope changes, and weekly progress updates
- Built reusable project workflow templates from recurring patterns, reducing setup overhead
- Controlled scope creep through structured change request process and stakeholder alignment

## Education Level

**Telkom University Bandung** - **Bandung, Indonesia** Sep 2021 - Sep 2024

*A 3-year Diploma Applied Software Engineering Application, 3.90/4.00*

- Consistently high GPA (3.90/4.00), Cum Laude
- Proficient in Relational Database Design, SDLC, Web Programming, and Analysis/Design of Information Systems.
- Received "Outstanding College Student" award at the Faculty of Applied Sciences.
- Awarded scholarships Indonesia Cyber Education (ICE) Institute Scholarship and Research Program Funding (Pekan Kreativitas Mahasiswa Pendanaan) by the Ministry of Education.
